

# AQUATIC BASKETBALL/VOLLEYBALL

## Floating Basket Ball Game

Well built, soft EVA foam, includes ball. FOB Factory Pricing.

Item No	Description	Price
22 11 20	Floating Basketball Game	\$110.00

## Splash & Slam Basketball

Splash & Slam is new & we think Splash & Slam offers features not available with other basket ball games. It is the most durable basketball system we have seen.

The base is heavy-duty polypropylene and is designed to hold 500 pounds of water for stability. The best feature is that Slash & Slam is designed with a safety release mechanism on the rim; rim & backboard pivot downward if a player attempts to hang from the rim, virtually preventing tip over.

Backboard is fabricated from impact resistant structural fiberglass (toughest backboard we've seen) and the rim is vinyl coated which pretty much eliminates the problem of a rusting rim.

Backboard/rim assembly is easily adjustable in height with out tools. Rim height ranges between 24 inches to 72 inches over the water making the game easily adjustable to suit various program age groups.

Footprint on deck is 30 inches wide by 35 inches depth.

Optional volleyball add-on provides an extra base & pole with a net and all needed attachments.

FOB Factory.

Item No	Description	Price
21 13 05	Splash & Slam B Ball - B100	\$699.50
21 13 06	Slam-Volley Add-On - C204	\$349.50

## Splash & Shoot Portable Basketball Goal

The unit features a water filled polyethylene base that holds 200 pounds of water when in use. The post is powder coated aluminum; and the reinforced poly backboard is 29" high by 43" wide, with mounting brackets that allow the backboard and rim to be fixed at any height from 0 to 52" above the base. The regulation size rim is vinyl coated, and a standard sized ball is included. The hardware is stainless steel. Sold FOB Factory.

Item No	Description	Price
22 11 01	Splash & Shoot Basketball Goal - B600	\$287.95

## Deckshoot Basketball Goal with Bronze Anchor

A deck mounted basketball goal that has a fixed 20" setback from the backboard to the anchor location, and a fixed height of 46" above deck level. The aluminum post is powder coated aluminum, 2 3/8" in diameter and comes with a matching bronze anchor c/w cover that is notched to prevent rotation. (Note: will not fit in existing stanchion post anchors.) The reinforced poly backboard is 29" high by 43" wide, and comes with a vinyl coated regulation size rim. Stainless steel hardware and a ball are included. This unit is sold FOB Factory.
