

AQUA PRODUCTS ROBOTIC VACUUM LINE

Aqua Products is probably the second largest robotic pool vacuum manufacturer in the world, with a 30 year track record and is USA based. They make a very modern and comparable vacuum to all the others in the market place with an emphasis on using modern technology, brushless motors, durable materials of construction, customizable running times, gyro based programming on some models, and unitized construction for ease of maintenance. With the ability to program run times, and the long cords these units can be customized to work in any pool. Check and compare features, cord lengths and prices. Worth a look.
