

DIVING STANDS

Cheyenne Dive Stands by Spectrum

These are all stainless steel (304L) stands, custom made for each application. Stands can be 1/2, 2/3, 3/4, 1 or 3 meters in height, rear or side mount and accommodate 10' to 16' diving boards, (not included, by others). Typical features would include double guard rails on both sides, (1.9"OD X .065 walls) flanged columns, foot adjustable fulcrum and hinged diving board mounts. 1.5" OD handrails or heavier gauge tubing are common options. **FOB Factory**

Model No.	Description	Price
22121	1 Meter Stand, rear ladder	\$11,795.00

22131	3 Meter Stand, rear ladder	\$14,785.00
22150	Anchor kit for rear ladder	\$1478.50
22133	3 Meter Stand, side ladder	\$15,415.00
22170	Anchor kit for side ladder	\$1788.00

Recreational Diving Boards by SR Smith

Recreational Diving Boards are wood core, covered with a white acrylic shell and have a non-skid finish. Typically they are far less bouncy than aluminum diving boards. They come in 14' and 16' lengths with the same 5/8" bolt holes on 12" centres just like the aluminum boards. The user weight limit is 250 pounds and the boards weigh 200 and 230 pounds respectively. It is important that these boards be stored inside (dry and above freezing) for the winter. A good alternative where there is no competitive diving. **FOB Factory**

Model No.	Description	Price
66-209-2242-1	14' Recreational-white	\$2589.95
66-209-2262-1	16' Recreational-white	\$2772.75

Note: Diving boards are sold separately from stands & are not included in stand prices.
