Vari-angle Digital Thermometer

This is a one size fits all product. It can replace glass or bi-metal thermometers. It shares the same standard size well as a glass tube thermometer, and can read any scale in C or F. The digits are 3/8 inches high and powered by light, no batteries required. The head tilts up to 90 degrees so the display is always upright, and locks in place. Supplied with a well that screws into a hole threaded to ¼ NPT.

Flowswitch

The series V8 Flotect flow switch is ideal for swimming pool applications because all the wetted parts are plastic or 316 stainless steel, and the switch is magnetic. There are no seals to fail. It can be used in pipe from 1 to 6 inches in diameter, the vane is marked and can be trimmed for each pipe size. The body is threaded with 1 inch MNPT. The electrical rating is 5 amps at 125/250 VAC. It is 3 wire so can be used as normally open or normally closed. A great switch at a great price.
