

Chlorine Generator (from salt)

Chlorine generation is not a new idea; in fact it has been around for more than 50 years. The system works by creating chlorine through an electrolytic process in the filter room. Chlorine is created and dissolved in the pool water, salt is typically maintained at about 3,000 PPM (as reference - ocean water is 36,000 PPM).

The Clormatic Model Com 25 chlorinating system dissolves salt in pool water into chlorine, at the rate of 1.5 pounds of Cl_2 per 24 hours.

The system consists of a power supply, a flow and salinity sensor and the electrolytic cell.

The power supply also contains a digital display panel that shows the units status and the system controls.

The Chlormatic system automatically tests for flow and salinity continuously and also has a regular cell self-clean cycle.

The Chlormatic system hooks up to your controller just as any other chlorine supply system would.

Not recommended for outdoor pools.

Item No	Description	Price
12 24 01	Chlormatic Com 25 - Discontinued	\$NLA
12 24 03	Replacement Com 25 cell	\$2995.00
12 24 04	Flowsensor	\$248.50
12 24 07	Front PCB	\$240.25
12 24 08	Back PCB	\$409.75
12 24 10	CM2 Power Supply	NLA

SWIMMING POOL HEATERS

Jandy (Teledyne Laars) Pool Heaters

The models shown below are stocked. Now with electronic thermostat. Larger sizes and optional items take slightly longer. Call for price and delivery.

Item No	Model	BTU Rating (000)	Price
12 26 01	LG	125	\$1702.65
12 26 02	LG	175	\$2213.40
12 26 03	LG	250	\$2342.90
12 26 04	LG	325	\$2668.50
12 26 05	LG	400	\$3002.85

Options for heaters are: Outdoor models, Propane models, electronic ignition and salt water models. (Note: use of a regular heater on a salt water pool will void warranty).

Jandy (Teledyne Laars) Heaters & parts are available in sizes from 125,000 BTU to 5,000,000 BTU. Call for price and delivery. Parts for all Jandy (Teledyne Laars) Heaters are available, call with heater model number.

Coates Electrical Heaters

Item No	Kw	Volts	Price
12 28 01	12Kw	240V 3ph	\$2271.50
12 28 02	15Kw	240V 3ph	\$2321.20
12 28 03	18Kw	240V 3ph	\$2429.95
12 28 04	24Kw	240V 3ph	\$3040.45
12 28 05	30Kw	240V 3ph	\$3106.35

Other voltages and sizes to 57 KW are available. Please inquire. Coates parts are available, please call with heater model number.
