18 02 04	Tension spring 6"	#5385	\$25.95

Rope Hooks-Economy

These hooks are chrome plated cast brass. They capture the rope end and lock it in with a cross bar held down by two screws. Rope must be sealed to prevent unravelling so the hook will stay on. Works well with nylon or poly ropes which are sealed with heat.

Item No	Description	Price
18 02 10	3/8" Rope hook PH-52	\$23.15
18 02 11	3/4" Rope Hook PH-53	\$25.08

ROPE FLOATS

One Piece Oval Blue and White Plastic Floats

Item No	Description	Price
18 03 01	3" x 5" x 1/2" blue and white float	\$3.35
18 03 02	5" x 9" x 3/4" blue and white float	\$5.95

MINI LANE DIVIDER KIT ANTI WAVE MINIS

Anti-Wave Mini Lane Lines are the same discs as regular lane lines, but smaller, (3" dia instead of 4.75" dia). Like regular lane lines they can be ordered in any pattern or colour, and use the same floats. These Lane Lines are shipped unassembled, with yellow poly rope and S hooks to keep the costs down. The yellow poly rope and lighter weight make these much easier to take in and out. If you wish to keep these lane lines tight use the Tension Spring shown above at one end, or a Mooring Line Snubber/tensioner from a boating store (a rubber/marine version of the bungee cord). **FOB Factory**

Item No	Description	Price	Set (6+)
20 03 02	25 Yard Unassembled	\$417.60	\$375.10
20 03 03	25 Meter Unassembled	\$440.55	\$395.75
20 03 04	50 Meter Unassembled	\$878.50	\$789.10

Other lengths available on request.
