Mendota Portable Lifeguard Chairs *by Spectrum*
Made of plastic wood (high density polyethylene)

Mendota portable lifeguard chairs are made of plastic wood and come in two colours, white or sand. The chairs are available in three seat heights, 3', 4' and 5'. They are shipped partially knocked down so some assembly is required. They are screwed together with stainless steel hardware. Plastic wood is heavy and impervious to almost everything making it ideal for outdoor applications. **FOB Factory.**

Model No	Description	Price
42022	36" Mendota Chair	$998.25
45023	48" Mendota Chair	$1268.85

MENDOTA SIDE STEP

Lifeguard Platforms *by Spectrum*

These platforms are ideal for waterfronts or large deck areas, and are large enough to have two or more guards on the platform at the same time.

On the Hilgard the platform is 34" wide by 63" long, and the seat height is 58". The platform weighs 250 pounds and has access ladders at each end.

Both units come with non-marking pads for deck use, and mounting brackets for a rescue buoy and umbrella. These are shipped knocked down and some assembly is required. **FOB Factory.**

Model No	Description	Price
20121	Hilgard	$6969.00

Lifeguard Chairs *by Tailwinds*

These are recycled plastic wood Lifeguard Chairs with SS fasteners suitable for indoor or outdoor applications. These are shipped knocked down and some assembly required to economize on freight and available in 4 colours. **FOB Factory.**
