Standard Hand Bar

AQUATIC BELTS

AquaJogger Belts

The belts feature a contoured design which features a wider area of foam positioned against the lower back for support. The belts comfortably suspend the body in the water at shoulder-level, allowing the security and freedom to perform a variety of workouts in both deep and shallow water.

Belt adjusts to fit sizes 19" to 48". The belt includes an easy to operate quick release buckle.

THREE MODELS:

ACTIVE BELT - constructed of firm EVA foam, supplied with elasticized belt option.

CLASSIC BELT - the original Aquajogger patented design is made of multiple thin layers of EVA foam for flexibility & great comfort.

SHAPE BELT - longer design distributes buoyancy more evenly. Designed for fuller figures and people with back problems. Modified arch keeps a person more vertical in water
