AQUATIC BASKETBALL

Floating Basket Ball Game

Well built, soft EVA foam, ball not included. **FOB Factory.**

Item No	Description	Price
14.1810	Floating Basketball Game	\$148.40

Splash & Slam Basketball

Splash & Slam is new and offers features not available with other basket ball games. It is the most durable basketball system we have seen.

The base is heavy-duty polypropylene and is designed to hold 500 pounds of water for stability. The best feature is that Slash & Slam is designed with a safety release mechanism on the rim; rim and backboard pivot downward if a player attempts to hang from the rim, virtually preventing tip over.

Backboard is fabricated from impact resistant structural fiberglass (toughest backboard we've seen) and the rim is vinyl coated stainless steel.

Backboard/rim assembly is easily adjustable in height with out tools. Rim height ranges between 24" to 72" over the water making the game easily adjustable to suit various program age groups.

Footprint on deck is 30"wide by 35" depth.

Optional volleyball add-on provides an extra base and pole with a net and all needed attachments.

CLIMBING WALLS

Kersplash™

Add adventure to your aquatic area with a poolside climbing wall. Kersplash™ is suited for indoor or outdoor use and is available in two panel styles. Kersplash™ Crystal Clear™ complements any aquatic center and offers visibility to areas behind the wall. Kersplash™ Color makes a bold visual statement with brightly colored panels. Both styles are made from UV- and chlorine-resistant materials and feature red, yellow and orange Groperz™ Hand Holds. The Kersplash™ frame is constructed of high-quality, 100% passivated stainless steel to withstand harsh pool environments. Climbing walls are made in 4 foot width - For wider walls choose 2, 3 or 4 panel widths.

KERSPLASH™ POOL WALL PACKAGE INCLUDES:

Kersplash™ panels, Stainless Steel Structure, Groperz™ Hand Holds with stainless steel mounting hardware, Kersplash™ Rules & Guidelines Sign and Safety, Care and Maintenance Instructions.

NOTE: A designated "drop zone" is recommended at the base of Kersplash™ to keep swimmers out of this area.

Kersplash™ Pool Climbing Walls are modular and can be made to fit any space and deck configuration. The 4' panels attach to a stainless steel frame allowing you to customize the height and width of the wall to meet your needs.

Kersplash™ requires a footprint of:

- 35" of deck space
- 4' of clearance behind the wall for a walkway
- 5' to either side of your wall
- 10' drop zone
- Pool depth determines the height of the wall

Please enquire about these options: Climbing walls can now be supplied as a knocked down item to economize on freight.
