

COMMERCIAL POOL SLIDES

Tot Slide by Aquam

This small slide is designed to be portable, and used by small children with adult supervision. There are no provisions for any mounting hardware to fasten it in place. Ideally it is used at a beachfront or zero depth pool. One colour only, light blue, as pictured, and one piece so easily moved by 2 people. It is made of fiberglass with a smooth gelcoat finish, and has plastic trim around the bottom edge to protect the fiberglass from concrete and tile abrasion. **FOB Factory.**

Item No	Description	Price
ER-21101	Tot Slide, Blue	\$1316.35

Cyclone Slide by SR Smith

The Cyclone Slide by SR Smith is made from rotomolded polyethylene and comes in three colors: Sandstone, Taupe and Gray Granite. It is 41" tall at the top of the handrails, takes up about 7' of deck space parallel to the pool edge and extends back from the pool edge about 5 1/2'. Available in right curve only. Required water depth is 42". The stairs are totally enclosed, a water delivery system is included and the slide is rated for 175 pounds. Some assembly and anchoring to the deck required. **FOB Factory.**

Turbo Twister Slide by SR Smith

The Turbo Twister Slide by SR Smith is a rotomolded polyethylene slide. It is available in two colours, Sandstone and Gray Granite. Right and left curves are both available. Height at the top of the handrails is 8' 7". The footprint on deck is a rectangle, 6' 8" back from the pool edge and 13' 6" parallel to the pool edge. The weight limit is 275 pounds, and the recommended minimum water depth is 4' 6". A water delivery system is included. Assembly and anchoring will be required. More dimensional information and installation instructions available on request. **FOB Factory.**

Item No	Description	Price
688-209-58---	Turbo Twister Slide - Right /Left - Sandston/Grey Granite	\$4455.00

Tropical Slide by Aquam

This is a deck slide designed to be permanently mounted beside a pool. The total height is 7' to the top of the handrail, and it incorporates at 90 degree curve. Depending on the deck to water height and the larger children and adult users it will require 4-6 feet of water depth. It ships in two pieces to economize on freight and is made of gelcoated fiberglass. It has a nice smooth finish and can be used without water spray if desired. Due to the curve this slide will take up about 11 1/2' of deck length and 6' of deck width. Available in light blue only. **FOB Factory.**

Item No	Description	Price
ER-21000	Tropical Slide, Blue	\$4,433.75

Note: Due to variations in local codes, obtain approvals before ordering and installing slide.

6 DECK EQUIPMENT

Vortex Slide by SR Smith

The Vortex Slide is a custom product, available in 4 configurations. It can have a Ladder or Stairs, and Open or Closed Flumes. The flumes are rotomolded polyethylene mounted on a powder coated steel frame. It is available in 2 colors, Blue and Gray Granite. Overall height is 10' 7" and the runway is 19' long. The footprint on deck or the slide with ladder is a rectangle, 9' back from the pool edge and 9' parallel to the pool edge. For the slide with stairs it is 9' by 11'3". The weight limit is 325 pounds, and the recommended minimum water depth is 4' 6". A water delivery system is included. Assembly and anchoring will be required. More dimensional information and installation instructions available on request. **FOB factory.**
