

TEST KITS AND CHEMICALS

Taylor Is Your Best Choice

Taylor Technologies has been developing, manufacturing and selling analytical test kits since 1930. They are very focused on supplying test kits that are absolutely reliable, functional and easy to use. Labelling and MSDS sheets are DOT compliant. In aquatics Taylor is recognized as the leader, Taylor is the kit most often used by pool operators, health department officials and maintenance personnel. With kits available for all the tests typically done at commercial pools Taylor is all you really need!! At Commercial Aquatic Supplies we've carried only Taylor for more than 20 years. We carry a complete stock of Taylor kits and reagents. We also have the expertise to assist with chemistry or testing questions as they arise.

Taylor Test Kits

Item No	Model	Description	Price
13 01 01	K- 2000	Starter Kit DPD Chlorine, PH, Acid & Base Demand, Water Balance & Treatment Guide	\$83.17
13 01 02	K-2005	As above, plus Total Alkalinity Calcium Hardness, Cyanuric Acid	\$120.46
13 01 03	K-2006	Same as K-2005 except uses drop test for chlorine	\$155.55
13 01 05	K-1264	Midget Iron & Copper	\$201.08

Professional Single Function Test Kits

Item No	Model	Description	Price
13 01 07	K-1259-1	DPD Chlorine 0 - 3.0 ppm	\$243.06
13 01 08	K-1289	DPD Chlorine 0- 10.0 ppm	\$233.05
13 01 09	K-1153	Iron 0-2.0 ppm	\$256.85
13 01 10	K-1155	Copper 0-3.0 ppm	\$250.48
13 01 11	K-1011J	PH 6.8-8.4	\$257.80
13 01 12	K-1518	CL ₂ & Oxybrite/Oxiout	\$160.93
13 01 13	K-1764	Total Dissolved Solids	\$139.86
13 01 14	K-1766	Salt (Chloride) 1 drop=200 ppm	\$86.05
13 01 20	K-1515C	Drop Test Chlorine 1 drop= 0.2 or 0.5 ppm	\$153.47

Combination Slide Kits

Item No	Model	Description	Price
13 01 16	K-1765	DPD 0-3.0 and PH 6.8-8.4	\$333.37
13 01 17	K-1765H	DPD 0-10 + Ph 6.8 - 8.4	\$347.15
13 01 18	K-1741	Complete Professional Kit with DPD Chlorine 0-3.00 ppm, 1-10 ppm, H 6.8-8.4 ppm, Acid & BaseDemand, Total Alkalinity, Calcium Hardness in Attache Style Carrying Case.	\$701.13
13 01 19	K-1741 C	As above plus copper, iron and total hardness.	\$906.20
