ACCESS STEPS AND LADDERS

Therapy Ladder (Missoula ladder) by Spectrum

The sloping design makes pool access user friendly at a very good price. Rails are stain-less steel 1.5' OD for easier gripping. Units are custom made for your pool. Anchor sockets and escutcheons sold separately.

Model No	Description	Price
25013	Therapy Ladder 3 step	\$2166.00
25019	Therapy Ladder 4 step	\$2293.00
25025	Therapy Ladder 5 step	\$2545.00
42696	Compression Anchor - composite	\$127.20
24094	Compression Anchor Wrench	\$111.30

FOB Factory

This therapy ladder can be configured to work in deep water by being bent to return to the pool wall like a regular pool ladder.

MISSOULA LADDER

Boseman Ladders by Spectrum

These ladders are made with 1.5" OD tubing so the handrails are easy to grip and the treads are heavy duty fiberglass with a non-skid finish. They require 1.5" wedge anchors cemented in the deck for mounting just like regular ladders so will only fit in the anchor location, but can be removed if required. Anchors and escutcheons not included, must be ordered separately. Custom made to your pools required dimensions.

Model No	Description	Price
57920	3 step Boseman	\$6828.00
57921	4 step Boseman	\$7767.00
57922	5 step Boseman	\$8544.00

FOB Factory

BOSEMAN LADDER

8 AQUATIC ACCESS EQUIPMENT

Aqua Step HD - Pool Access Step

These are lightweight pool steps designed for use where temporary access is needed. Once lifted out of the pool one person can wheel it away on the integral wheels. Custom made to accommodate various pool depths, deck profiles and bottom slopes, as per dimensions provided with order. The top steps come with brackets and fasteners to bolt the step to the deck, and can be customized. The treads are non-skid plastic, 10" deep and 30" wide, with ss braces for a 500 pound load. Handrails are plastic coated aluminum for strength and durability. The number of treads can be customized, but remember that riser height must be 10" or less. Treads are large and easy to climb but note that the handrails do not overhang over deck but stop at the end of the stairs, at the pool edge. The Aqua Step is shipped knocked down, some assembly is required. Sides are removable to make taking the stairs in and out easier, risers when installed are fixed.

Model No	Description	Pool Depth	Price
17 05 01	Pool Access Steps 4 tread	34" to 45"	\$4968.00
17 05 02	Pool Access Steps 5 tread	41" to 55"	\$5725.00

Aqua Step-ADA Compliant

These are US ADA Compliant Pool Steps and are custom made to order for each pool. Not as easy to take in and out as the Aqua Step HD, but provides more support/ease of use to challenged users. These are shipped knocked down for economic transportation, some assembly required, and anchors are provided to fasten the top step to the deck. Sides and risers, and a standard top step are included in the price. Please see drawing for more details. A pool deck drawing must be submitted with each order to determine the correct number of steps needed, and if a custom top step is needed. The maximum recommended riser height is 8.5". 8 to 10 steps quoted on request.

Model No	Description	Pool Depth	Price

TOT DOCKS

Deluxe Tot Dock

This Tot Dock was designed to be the most easily removed one on the market. It weighs just 75 pounds and with folding legs can be easily removed by one person. The platform is 38" wide and 60" long and the height is adjustable to 12", 14", or 16". It has a non-skid surface and optional 28" high hand rails are available. There are plastic bumpers on the edges to protect the pool edge and with the folding legs can be easily stored flush against a wall taking up very little space. The tot dock is made of marine grade aluminum coated with a high visibility non-skid finish and the railings are aluminum reinforced PVC. Each Tot Dock comes with one long and one short rail. Tot docks come with fasteners so that two or more can be fastened together to make larger platforms of any configuration.
